

Virtual router setup

Network Management Workshop

Kuala Lumpur
APRICOT 2010

Virtual routers

- We use GNS3: <http://www.gns3.net/>
- Open Source Cisco emulator
 - IOS is NOT Open Source, and you need a license for these images!
- Emulates the entire platform (not just IOS) – hardware, cards, ...
- 8 virtual 3640 routers are setup
- IP addresses: 169.223.142.11 – .18
- We will quickly demo how to access them
- PC1 + PC2 → .11, PC3 + PC4 → .12, ...
