1.1	We need to lock down the web interface and turn the firewall back on . . . . .	1

## 1 pfSense hands on

In this morning's presentation there were some filter rules we can implement on our firewall:

<http://noc.ws.nsrc.org/pacnog14-sns/raw-attachment/wiki/Agenda/Firewalls.pdf>

We also want to be able to connect to these ports on srv1-N and srv2-N from outside:

ssh - port 22

### 1.1 We need to lock down the web interface and turn the firewall back on
